269 DAYS PAST

~~WEDNESDAY~~

77 TO COME

Any Exhausting Illness

is apt to leave its traces upon the blood in the form of a secondary Anemia. **Pepto-Mangan (Gude)** is a definite and dependable anti-anemic of marked and certain value. It builds new red cells, rebuilds old ones and supplies the essential material for the regeneration of the ever-necessary hemoglobin.

Weather

Temp

Rained a little

John ploughed, all day
and at night - we all
went to Mr Herbert's, for
tea had a lovely time
I went to Ayllmer & got
the cheese cheese, Mella
did the work, I got some
pears at Mrs Birighans
& did some marmalade
