East of there, cost us  
\$6.00 for one hour in the  
glass bottom boats, they  
have 5 boats and all  
full of people going.  
Scene 1 they called Mammoth

million gallons of water daily  
then the Reception Hall 40  
ft deep. all kinds of fish here  
the Biral Chamber 81  
feet deep you could see  
bottom as clear as if  
it was only one foot  
deep. and a few more

came etc all kinds of  
plants. fish turtles etc  
some large logs and  
an old boat. they said  
they have been there  
until they are turned  
into stone. came back same  
way as far as Leesburg.  
then came South around the  
Lake instead of north.
