275 TO COME

The Periodic Estimation

of erythrocytes and hemoglobin percentage almost invariably demonstrates an increased functional efficiency of the blood after the regular use of **Pepto-Mangan (Gude)**. This hematinic tonic quickens all of the normal anabolic efforts of the economy and thus assists materially in the absorption, assimilation and systemic appropriation of the nutritional elements of the natural food stuffs.

Weather

Temp.

Raw & cold high wind,
Girls went to school, shed
scraped the roads, down the
side road. John went to
mill this morning. Blake
Miller was assessing, & was here
for tea. Then went around
& stayed to Morley Kings
all night
