

August 15th

Saturday Joseph Edmunds reaped some Monday
for us in the forenoon -
in the Mullen field put up 950
sheaves of wheat. Drew in
wheat - beside the orchard
in the afternoon had 5 loads
it was not bound.

I upset the waggon yester-
day backing out of the barn
it so happened no out was
hurt.

16 Very dry and hot. Roads
fearfully dusty.

Rev Mr Scott preached
from the 9.10.11 verses of
the 5 chapter of Romans and
he gave us a good discourse
and "God grant that we
may profit by it."

Francis R.

August 17th

Finished cutting wheat -
in the Mullen field 1030
Total no of sheaves of wheat
for this year 3310
We have only about 1/2 acre
of oats more to cut and
then we will be done
beside drawing.

Pa took Henry over to his
school in the morning
while I churned.

Drawing in wheat in
the afternoon from the
field at the point. Drew
7 loads, very windy.
Big fire in the afternoon
across the river, it looks
like strokes of grain, but
I don't know whether it is
or not. School commenced today.
