

November, 1928.

17. Saturday. Rained hard last night. Mild & showery. Vernon finished plowing the last head land and put manure on the garden. Walter took a load of grit to Floral Dale. This afternoon they plowed the garden.

18. Sunday. Drearly drizzly day. We went to Woolwich Sunday school this morning and to Conestogo United Church this afternoon. We had dinner and supper at Peter Musselman's. We went down with Charlie Miller. We wanted to go over to Williams to see the fox, but the river was overflowing its banks and the water running over the road, so after getting stuck in the deepest places and having Clifford Snider pull us out with the big mill truck we decided to see them some other time.

19. Monday. Snowed all day. Walter went to Elmira this morning. Noah Miller spent the afternoon here. A. C. Henderson also called.
