pen pens with her & Daddy went to a sleep. Lila and Sam  
McCall were over to this after noon that did not stay till  
Mr. they who had a stroke the other day and has been rapidly  
improving this after noon about half past five.

Saturday September 9th  
We got up very late this morning  
I plowed all morning with the  
big team and Daddy had the little  
team on the harrows. It was very  
hot and I was about half asleep  
and the blooming thing seemed to go  
all wrong. Dad went over this  
morning to see if he could borrow  
Mr. Jones' roller but Mr. Gleason  
had it so he went over to Mr. Mc  
Bride at noon and harrowed his.  
This afternoon it was cooler with  
a little breeze and I finished disk  
and Daddy raked with the little  
team till about five o'clock and then  
put the big team on the roller and I took  
the little team up the poor little things  
were pretty tired and ringing wet I  
did the chaps up before tea.  
Edith and B. Rain were here to tea  
After tea we fooled around (see inside

Sunday September 10th  
Had a good sleep this morning and  
went down to church and Sunday school  
but do not have to go early now as  
Mr. Wiser is back on the job, by the way  
he has not paid me yet, two spots coming from  
that direction. Stayed at County Meander to  
dinner and then went up town and fooled  
around with Murray who is greatly excited  
over the report that Perce Brooks & Lena  
Gibbs are married having been hitched in  
Singapore last night. He came over here  
and we roamed around and he inspected  
the piano & cream separator and stayed  
to tea. We walked down to church after  
tea and Daddy and Craddock down. Mr.  
Johnson had to bring his dog out during  
service as it came up the aisle and the pulpit  
It came up this morning near the end of the  
service. Mrs. Davis patted it for awhile and  
it went over and lay on the register till  
Church got out.
