

snowed quite hard and we got pretty wet. This
after noon Mary and I went down town and I got
some cosmetic polish for the C.P.'s noses and some
large pills to put on Belle & Rachel as they are badly
infested. Tonight I went to band practice and Mary
went down with me and went to give my lessons. Quite

Tuesday February 8th

It snowed enough yesterday to make the sleighs run
so Frank and I hauled out manure all day and got
about 8 or 9 loads out on the roof ground. I cleaned
out both cow stalls & the calf pen and hauled five
or six loads from the cow shed pile. Uncle Ward came
over this morning for a visit and went home when
I went at noon. Mary came over with her things and
helped him make arrangements all the afternoon. He
has been quite sick with grippe or a very bad
cold and doesn't go out of the house at all. Very soft

Wednesday February 9th

This was a hazy Wednesday so Mary went down to work
at ten o'clock. Frank and I spent the forenoon back
in the woods. When I got home at noon Mary was
preparing to receive the Bonfields as they were up
at the dentist's and telephoned over that they would be
here for dinner. They didn't get here till nearly 9

This afternoon I didn't go back to the farm but with Warren
drove to Jack Mathias' place in which business I was
interested. I took him over to the farm and showed
him the woods. We put him down in the morning's stable.
Mary left before five and I went over to the farm and
stayed to dinner. Party was over here for tea and
went down with them and back when they went
to their afternoon practice. Mary & I went down to church
tonight but I slept all through it. Very mild.

Thursday February 10th

Frank and I went back into the woods again this morning.
We are getting a fairly good sized pile of wood cut. This
afternoon I was late getting over and it turned rather
raw so we hunked down. Mary went down town this
afternoon and went calling but her foot was quite
lame to night. She slipped and hurt it last night. I
went down to an evening band practice tonight to try
out some new music and Mary was too lame to
go with me so she went to bed before I left. The wind
was making such a racket on the east side of the
house, she didn't want to sit down there. Cold to night.

Friday February 11th

The wind kept up all night and it began to snow
