

April 2

Monday 2

I hauled but cold wind. John split some wood. John went to Aylmer this morning with the milk wagon. Melba went with the car, while it was frozen. Clarence & Cecil fixed the culvert east of our place, & the one by Clarence's gate.

Tuesday 3

It rained and thundered and lightning was quite sharp. Mother and Melba washed, and put the clothes out about noon, when it stopped raining and the sun and wind came out. Osmond came out this afternoon, after he had the back of his car fixed with a new glass. He had dinner when he came and stayed for supper. The roads dried and settled some this day.
