

Thursday June 21st

I wasn't disturbed all night although Mrs. Lawton said the baby howled most of the night. Mary's though felt fine. I had breakfast at Aunt's and called in at the farm on my way home. I went over to Louis this morning to see how he was getting along. He had put in another anchor post but the ground was very wet. This afternoon I took Muriel over for her lesson and left the Wampus at Mrs. Lampkins and went down town again. Ade Pyrae called up and asked me to go down there and get some asparagus that she wanted to send down to Mary. I had to walk from Bill Donald's down as they are putting in a culvert there. I found Mary still feeling well as I didn't go back to night. But slept here for the first time in nearly 2 weeks. Still looks very rainy.

Friday June 22nd

Went down town this morning to see how the family was and was gone all forenoon. Mary is feeling exceptionally well. This afternoon I hoed in the garden it was just dry enough in spots and was very hot. To night I attended a little stag party

some of the boys got up for Doc. Isolation as he just got married this other day. We had a very nice time. I think I am a long for them.

Saturday June 23rd

I must have eaten something that disagreed with me last night as I felt terribly sick this morning and didn't eat any breakfast and very little dinner. I spent all the morning in the barn in the hay and about 11 o'clock managed to wiggle out & get Bobbie & milk her. I have been recovering slowly all afternoon and went down town. I took Mabel down as far as the Winding Hill and went down to Mrs. Walters for her to night. Rained most of forenoon. Very warm.

Sunday June 24th

I drove down town this forenoon to see how Mary was and took Mabel down to her aunt. Then came home & washed most of the mud off the car. Muriel cleaned the windows. This afternoon I took the Wampus over to Mrs. Lampkins and drove Mabel her father's aunt and Muriel up to St. John's to the big Maemie gathering at the grave of Mercer Wilson. There was an enormous crowd
