

Monday June 2nd

Dad. took Harry & Prommers back and disked all morning with them. I went back and helped him back up and then came up and helped Frank mix the husley & oats for seed and treat it with formalin. That took us till about noon. Bradley & Jason were here for dinner and we didn't get a very early start this afternoon. Dad. took the drill back with Harry & Joe and I took the seed with Belle & Queen. and we let Prommers rest. Dad. started to drill and I hurred ahead of him and we got over quite a little piece of ground. I went down to band practice to night. Still very hot and dry.

Tuesday June 3rd

Dad. disked this morning and I harrowed. Dad had Dave in with old Harry this morning and at first he went fine but after he got started he fought badly. Dad. put Joe & Harry on the drill this afternoon and got some more drilled but on account of the heat couldn't make much head way for fear of doing up the horses. I harrowed

with Belle & Queen for awhile this afternoon but poor old Belle was fagged right out. They are soft any way not having had any work all spring and this awful heat they say is killing a good many of them where men are not careful. To night Mary and I went to the picture show which was very funny.

Wednesday June 4th

I haven't worked the team to-day at all as it is still very hot and Dad. thought it was unwise to put Belle in. Dad. has been back all day with Joe and Harry. He finished disking & harrowing but didn't get it quite all drilled. I cut the lawn this morning and spent most of the afternoon wheeling the coal post heap out to where I want to put the perennial border. Frank did odd jobs in the garden and around the house. Enah and Sid went down to Aunty Alice for tea. She had Dick, Mrs Dick (Molly) & Alan Libbits down there for tea. Dad. and I drove Queen down after tea and Dick went down there and came home with Enah and I went for a drive up the Radical Road with Mary. Frank was down town too and went up the creek.
