# Wednesday, August 19

232 DAYS PAST MONDAY 134 TO COME

**Pepto-Mangan (Gude)** is an ideal ferruginous preparation, because:

1. It causes a rapid increase in the number of red blood corpuscles and the percentage of hemoglobin.
2. It does not derange the stomach in any way.
3. Far from causing anorexia, it actually increases the appetite.
4. It is palatable—a point of great importance in the treatment of women and children.
5. It does not constipate.
6. It does not affect the teeth.

Rained & hailed some about half past four & night. Mr Young helped John this fore noon to finish drawing in the wheat. Mr Choot helped him all day & this afternoon they started cutting oats east of the road. Howard & Stanley was here a few minutes
