191 DAYS PAST

174 TO COME

Which?

WHICH of the numerous preparations of iron and manganese has become best known and most popular among medical men?

WHICH is the commonly acknowledged world-wide standard as a dependable hematinic?

WHICH is of unquestioned and unquestionable value in chlorosis, anemia, and kindred conditions?

Pepto-Mangan ("Gude")

Weather

Temp.

Very warm. Dr. Au brought Mrs. Blaine & Mrs. Thompson out here this morning. They remained about one hour. He went over to see Mr. Coover's old belly horse. I milked twelve cows. They froak the Gay Fork track didn't get home until eight.
