

Wednesday August 30th

Daddy plowed full morning and Emory fixed the steps going up over the wood shed and then flipped down a partition on the floor in the old house where we are going to have the ice house. He sharpened my buck-saw yesterday so I cut wood nearly all morning and got almost all the pile of rails cut. I also helped him a little at the old house. In the afternoon Mrs. McPherson & Leon came down to get Emory. Daddy helped him a while and then went and plowed and Quah and Mrs. McPherson drove down with Emory's horse. Emory made a corn horse and he and I went back to eat corn it is not ripe but he was just going to show me how to do it. We went up about five and were going to get Quint's gun which we expected Quah would bring over and shoot crows but Quah could not find it so we painted the rest of the day at the

My sack Old has been quite well. I am sorry and to my help. I went back to Mr. Williams with Quah. I bought the Daddy and Emory's gun. I went to the store and bought some over to - two crows. I saw the bird and Quah. Quah and Emory.

Quah and I also picked about two bushels of p. I went to day. I took a by the down with us and called as to Mrs. Brown. Quint went home to - night and left his gun and ammunition here as he expected to be back in the morning. I did not have better and to stay but it was not so cold as night in last night.

Thursday August 31st

This morning I started to paint the rack and got part of one of the wings painted when Quint came with his gun. Quah and Emory did not come. I went back with Quint and then over where Dad was and had a fine flowing lesson. When I came back Quint was wandering around and not a crow showed up or did they all day. I helped him roba bees nest but there was no honey. Then I came up and painted. Quint shot a grey squirrel over in the woods. I painted quite a lot this afternoon and then Cutie, Lela and I went down town. Quah stayed at the church practicing with Miss D. I sat in till six o'clock. We brought Kathleen Millman home with us to stay a few days. We got the cows and milked milk before tea. Quint went back with me to get the cows and shot a dove and a hawk.
