67 DAYS PAST THURSDAY 299 TO COME

Increase the Solid Content.

Vital reconstruction and restoration is encouraged and maintained by increasing the corpuscular and hematinic content of the circulating fluid. **Pepto-Mangan (Gude)** promptly and efficiently accomplishes this purpose if given regularly after the subsidence of the acute symptoms of Typhoid, La Grippe or other infectious disease.

Weather Snowed last night Temp.

Thawed some today, girls went to school, Clarence lost bag got a black cow at, been sewing for Mrs Ed Thompson some took the milk, & then has been drawing manure all day. Eugene took rig out to Ay under as Aletas said. Kate came in last night, had a black & white Bull calf. One of Clarence Smith's horses broke it's leg today & Charley Marchant killed it Mrs Adams Bingham walked from Kingmill home, she had been to London Billy & Garrison &
