

FEBRUARY

MONDAY 7

1887

Intended to have  
you & since this  
process, and you  
here to the Quarterly  
meeting at Woodhouse  
Chapel. It has rained  
all day however, &  
cold disagreeable storm  
from the East, which  
has frozen as it came.  
Have not done very  
much as a consequence,  
except chores.

Mr. Smith came to  
make us a visit  
& so my time was  
occupied with him.  
The ground is well  
covered with ice &  
snow but particularly  
the former, and plough-  
ing is splendid.  
Sent Peter to the Blacksmith  
shop to get another horse shod.

FEBRUARY

TUESDAY 8

1887

Owing to almost in-  
cessant rain I did  
not get to Simco to  
day though I intended so  
doing. I have been bi-  
ling or running the cross  
cut saw, which has  
broken nearly all day.  
Peter has been splitting  
wood and doing chores &c.

Have had a great  
froset as the result  
of the present rains,  
already. The two drifts  
along our place have  
both gone. I mean the  
one at Challenands &  
the one at Mr. Biddle's.  
The upper will wait  
first and take the  
other with it as it  
wants more room.  
Had a long visit from  
James from So night.
