47 DAYS PAST SATURDAY 319 TO COME

Metabolic Equilibrium

depends upon a normal nutritive income, a proper interchange between blood and tissue, and a normal excretory outgo. A hemogenic stimulus is often necessary to maintain a natural balance between waste and repair. **Pepto-Mangan (Gude)** supplies the necessary stimulus to corpuscular reconstruction and hemoglobin creation in all conditions of general blood and tissue devitalization.

Weather

Temp.

+ + Cold east wind
drizzled to snow about three
this afternoon + to night
the snow is quite deep.

Maudie & Selba went to
Apliner this afternoon. John
took the milk this morning
& he took Billy & Mr Leases
dinner for Luke had not
any shoes on, and it
was so icy to drive him
I have been working on all day
rightly. Maudie finished a job
for Mike Allen for 9.00 for one Billy & Mike 5
