326 TO COME

The Vitality and Integrity

of the blood, as well as its immunizing power, is directly dependent upon a sufficiency of oxygen-bearing hemoglobin and a full modicum of red cell bodies. **Pepto-Mangan (Gude)** stimulates the creation of erythrocytes, encourages hemogenesis, raises the opsonic index, increases the appetite and acts as a general constitutional reconstructive.

Not very cold
but snowed some & blew
quite a lot especially this
afternoon. Gurls drove to
school. Joe & I washed, then
this afternoon I went down
& stayed with Wilfred, while
his Mother went to Agluer.
John was down to shed
all the fore noon. Joe has
gone to King's mill. Lewist
