

to say that Telfer would be down this afternoon
so I have been out with him all the afternoon intro-
ducing him to the parents of children interested in the
Sheep Club project and he has been explaining the
details of it to them. He was well pleased with the results
so far. Frank came out to night and drove me into
the lodge. We had Bro. Biddle on his official visit &
a big turn out. 4th in the Town Hall. When we came
out of the lodge room we found the car had been bumped
into. The back light smashed the fender bent & the licence
plate broken off. Shower during night. Very windy to day.

Tues day May 1st

Telfer came down this morning at 8 o'clock and
we were out all fore noon but didn't have quite such
good luck but Telfer said he would come down
again and the thing needed a little advertising.
I went to Simcoe with him for dinner and then after
noon went to Edmonds and arranged to have my seed
outs sent down and also some barley & fertilizers. Sales
went up to the Fruit Growers to see about my sprayer.
They are going to be on the look out for a used tank

for me. Ross L. Clapp the optician called me up while
I was at Edmonds and asked me to call around at his
office and I found that he was the car that collided with
mine last night. but mine did the bumping. It seems
Jones like a jock ass had taken my car out and got
the engine racing with the emergency on put it in
reverse and then took the brake off and shot across
the street and bumped this car of Clapps while he & I
were both up at lodge. Dick had just landed in town
from Toronto and saw the performance and ordered Jones
out of the car. Fortunately for me & Jones too. Gibbie
had renewed the insurance on the car when it ran
out on Saturday. but Jones will probably have \$20.
& put up and it will be between him & Gibbie whether
he or the Insurance Co. pays the rest. Clapp figures it will
take \$30. to straighten his car up. I ran across Cam
& Mrs. M. Biddle in Simcoe and rode down to Dorset
with them. Cam then drove me over to Dad's and would
have taken me home but I went in there for a while
and then Enah drove me on home. She started to harrow
the side hill but thought it was too wet. Every one else
is at it though. Muriel came out yesterday so Mary doesn't
need to see the other girl in Simcoe. Fine hot cold wind.
