39 DAYS PAST

327 TO COME

No Irritant Effect

is ever noted when Pepto-Mangan (Gude) is selected as the preferred hematic and tonic. It is so free from harshness and so promptly absorbable and assimilable as to render it the most generally eligible and acceptable of all reconstructives in anemic and generally devitalized conditions.

Weather

Temp.

Cold this morning
Snowed all the afternoon
John took Mella & John went
for her Maudie went for her
Mella was sick all day & went
up to Auntie Olives. Bell
ask us all over to dinner, but
as usual we couldn't go.
John went after dinner &
helped to kill the beef. Mark
was over this morning

Olley to Billy to.
