165 DAYS PAST

201 TO COME

The Solid Elements

of the vital fluid must be restored and reconstructed if the treatment of post-malarial anemia is to be ultimately successful. In other words, the "restitutio ad integrum" of the blood is the definite aim and object in this condition. If **Pepto-Mangan (Gude)** is regularly administered, after the paludal poison has been neutralized, it can be definitely depended upon to restore and re-create red cells and hemoglobin.

Weather

Very hot

Temp.

Had one of the worst  
storms, the lightning  
struck line telephone post  
of the Hickory tree by the  
east barn, the the posts  
all to pieces. Mr. Appled  
came to my house & brought  
Grace & Mauch's home  
the roads was flooded  
every thing, Melba took her  
list - w
