264 DAYS PAST

101 TO COME

Purgation for Diarrhea.

The good results of purgation in all acute and benign cases are too familiar to need further emphasis. Our experience in this series of cases goes to support the traditional belief that purgation, by means of castor oil or magnesium sulphate, is second only to rest in bed as a remedy for diarrhea. We have seen no special reason to prefer one of these two purges to the other. Either is usually efficient.—Cabot; J. A. M. A.

Weather

Temp.

Sprinkled different times
all day & very cold. Finished
drawing in the last load of
oats that they didn't trash
yesterday. Eugene was over &
took Joe home with him
I did up more corn & to
night finished gulating Mandie
pink quilt. I was home all
day. John was visiting the
afternoon & the night again
