 to
 automobiles
 and had
 quite a
 time with
 the team
 I got some
 host cards
 at Billy
 Corbin's
 hand came
 right home
 with them
 Doves
 played
 hands with
 says will
 in days and
 wood
 Score
 27-7
 They are
 doing
 better
 things as

Thursday August 3rd
 Got a little wood cut right after
 breakfast and then went out and laid
 brick bats around in the stable. We
 were all working out there this
 morning even Dick who came out
 about 9 o'clock, just at odd jobs around
 the place. About three or four o'clock we started to
 lay the cement for the floor. Dick went
 down town and got some tacks, candy
 stuff for tea, paper for Advocate, and some
 the cement books that sent for. I
 read them from then till tea time. Emery
 went down to Mrs. Hobbes to a tea party
 so Dick got tea and did fine. After tea
 he rode down and Bill went down with
 Emery to hear the band. Daddy and I
 after doing chores looked up Joe and Ginger
 and went down after Emery. Had quite
 a time finding her I looked all through
 the park as Allen on his way over the hill
 talk as she was there, and at last found

The report of the successful candidate trying for entrance into Journal came
 out to-day with Mary Clarke (town) and a fellow kidway. The latter has
 only been in the third form one year. Just 8 o'clock in afternoon were here the
 p.m. and Miss Hipp left here to night. Not all day no sign of rain

Friday August 4th
 Bill got home about five o'clock this a.m.
 Emery came and brought Cecil with him
 he is as sharp as a steel trap and just
 about as mischievous as Leon. I went
 down town right after breakfast in Emery's
 wheel to get my hair cut. I went over
 Brant Hill to take Mr. Smith his cheque
 and went down and stayed a little while
 with Joe. I also went down to Stuby's but
 none of them were up. I came back, dressed
 my good clothes and worked around the
 stable till noon. We started to make some
 concrete nest eggs for Stuby's. This afternoon
 Bill and I hauled three more loads of
 brick bats for which they pay us \$1.00 a load.
 Cecil went with us for these loads and Dick one.
 They got all the cement in the stalls. Emery went
 home to night and Bill bid us a last
 fare well. He expects to start for the West
 on the next Harvester excursion August 13.
