

and Saturday we got in I think three loads of wheat and put it in the mow over the oats & barley. we got a little more plowing done but Saturday morning while Dad. was plowing old Harry walked through his harness breaking the straps which connects the tug with the harness. Dad. went down to Mrs. Hopkins funeral on Thursday afternoon and I borrowed for Field's heat and went over to watch the steam shovel for a little while. Poor old Ed. Turner died on Wednesday. It rained a little shower on Friday night and rained hard on Sunday so Dad. & I spent all day yesterday setting up the oats across the gully but didn't quite finish. The millman's old came up again Friday night, but not here, as they have taken a cottage for a month over Brant Hill. They were all down here Sunday night for tea. Nite came up with them but of course Alm. was the only one of the boys and he & Paw had to go back yesterday. Last night Mary & her sister Darric & I went to the show which wasn't much good but it was the only time Darric could go as she & her father were here over Sunday and are going back to day. I worked all day setting up oats across the gully and then didn't finish. It was slow work doing it alone and was very hot down around the side hill. Dad. plowed all day and finished the little side hills, it was very hard. To night I went up the beach to a corn roast. There was a big bunch of goats up

there but very few boys. I found Darric Clarke & her father had changed their plans and aren't going till tomorrow morning so she went with us. We had a good time eating sand & burned corn and weren't very late. Very hot all day & to night ^{with breeze}

Wednesday September 15th

I set up some more oats this morning and Dad. plowed. George Duncan came after him to see a colt with a lame foot and he went up there right after dinner and took Enab & the baby with him. I shocked up till he got back and then we hauled in a load of wheat and found it in dandy shape. Colin Rysari rode in to night and after tea. G. Frank & I went for a swim I had a bad cold to-day so went right to bed as soon as I got home. It has been very hot all day

Thursday September 16th

Dad and I drove over to Tepper's this morning to get his man as he promised to lend him to us when we could use him most but he had gone over to help old Dave Lumpkins haul in his oats but Tepper said he would send him over tomorrow. I have this all wrong as I haven't written it lately. It was Wednesday that John couldn't come and we hauled in our wheat alone. Thursday
