EXSANGUINATION.

Loss of blood through accident, hemorrhage, surgical operation, or other cause, may be quickly and successfully combated by the administration of **Pepto-Mangan (Gude)** which rapidly builds new blood, increasing the number of red corpuscles and amount of hemoglobin, and acts as a stimulating nutrient tonic and reconstructive.

Being an organic preparation of iron and manganese, neutral in reaction, **Pepto-Mangan** is readily borne by the weakest stomach.

A warm day, has looked like rain but didn't. Maudie went to Orwell, to a demonstration on bees at the Crookshanks, then to Ayler for the mail. John has been trimming apple trees & helping Maudie making her bee hives. I cleaned the summer kitchen again. Albert was up to night a few minutes. Walter, Bonghners Mother was buried today. Mariah 8
