The Depleted Organism

is placed in a better position to withstand or "ward off" systemic infection if the formation of functionally active, oxygen-bearing hematin is aided and encouraged by the administration of **Pepto-Mangan (Gude)**. In the last analysis, the germicidal activity of the blood is dependent upon its hemoglobin content.

Weather

Very warm

Temp.

Maudie & I went to Ogden for to have Maudie's nose treated. Then Maudie, Mella & I all went again to night - for to have it done again. John finished cutting his coat today all done cutting now. Got Mella a new book paper. Mrs. St. Arthings & Aunt. Gus was in. Mrs. Leayo to night. George Allen's wife died yesterday.
