

a membership ticket for the Marticultural Society.
I spent the after noon making a sewing stand out of a
cheese-box. Marj. had the pattern for it cut out of a
magazine. She covered it and it looks quite nice.
This was the night the Junior hockey team went
to play Woodstock in the semi-finals but it is so soft
to night I don't think they can play. I would have watched
if I had thought they could, as it should be worth seeing.

Friday February 4th

I went over this morning and got Dock. and went
after a load of coal. I didn't get started very early
and called in at the farm for quite a while and again
at Uncle Waddi & give him Willie Shand's subscription
so it was noon when I got to the coal car. Mid. &
Shubert loaded me up though before they went to dinner.
I went up town and got some groceries so it was well
after noon before I got home. I unloaded the coal &
took Dock. home. and about four o'clock Harry B
and I drove up and saw Mr. Marsh about the Charles
Manroe place as Dad. told me if I could make a deal
with him to do it. I can't do much with poor old Dad
he wants too much money for his place and will

to put in a little cup this summer. Marsh asked \$4500.
for the place and I offered \$4000. so he split the difference
and I said I would see him again after I had consulted
Dad. We met Shady on the highway he had been up to
the Cedar Swamp to look for bird house poles and was
carrying home a punky stick with a high halder's
nest in it to put up for a nest. I was very disappointed
to find out this morning that Dove & Woodstock did
play last night and Dove got beaten. 3-0. This day

Saturday February 5th

I went over home this morning to help Frank get the ewe
lambs down from Horn. Thompson's but I was late getting
over and it was noon by the time we got there. We brought
them down and put them in with the other ewes as we
decided it would be simpler for me being the ram lamb
out here. By the time we had dinner we thought it was
too late to come out here so we filled out the application
for the lambs pedigree which Horn had signed and I
took them down and posted them and took some eggs
down. I called in at Auntie's for a while and it was
nearly dark when I got home. Raw east wind all
day. Heavy snow storm for short time at noon. Mild to night.
