

Half a load of hay and haul it to the horse stable and a little hay for the cows. So night Dad went down to the Mr. Smith's reunion committee meeting and Frank was down and stayed all night at Aunt's. Dick come home to night but will have to stay sleeping at the bank now as Hazen is to leave for Ottawa to morrow night. It has been much milder to day.

Tuesday March 21st

Art Grahbury come after Dad this morning first thing to go and help him and Glen get their Art's barn jacked up ready to move and Dad has been over there all day and says they are not through yet. Yappers helped them this afternoon. It's the old barn in the lane on Yappers place and Art bought it and is going to give Glen more it over on to his place. Frank come home in stead of going to school and he and I have hauled three loads of wood from Carpenter's to day besides doing chores. Dad spoke to Carpenter yesterday about getting this wood. It is mostly holly wood cut two years ago and piled up near the house. It is 16 inches long and 1.75 a cord when we haul it. We had the big new man who answers pretty well to Nellie and

Harvey and she goes fine, steps right along the road with out urging and is as quiet and gentle as a kitten but we have almost come to the conclusion judging from her looks and to day and yesterday from her actions that she is not in foal, but she may be. Frank set some rat traps up in the pig pen last night and this morning Dad found poor old Lits caught in two of them by a front leg and her tail, we don't know whether her leg is broken or not. Enah took the baby in his right down here this afternoon and got the mail. Sam Luce was in and got a bag of potatoes, he thinks now they will go down on John Wath's place. Aleta M. Brice was over here all day washing. Very soft and cloudy all day & to night.

Wednesday March 22nd

We were rather surprised this morning after the yesterday's nice day to find it winter again this morning, but it was snowing and blowing and pretty cold. Art didn't call for Dad and we didn't haul any wood. We just did chore and Frank and Dad took down our bed and put up the walnut one instead which we got in Port Rowan. I took some more
