

Have been gathering King apples most of the time myself to day. Lewis and I have been drawing home corn and corn-stalks, besides husking.

Our old friend Mr. E. Nyerson came to see us this afternoon, after a long absence. She is now becoming quite aged but is still of vigorous mind, and in good spirits notwithstanding her many troubles.

George Benson came to night to stay over night with us. He has been away a long time also.

The boys and I got in a couple of loads more of un-husked corn this forenoon. This afternoon we have been husking corn on the big flat. The weather has been very warm and nice. Rain is much needed but still keeps off.

Had dinner at home with wife Mrs. Nyerson and ma. She was also there.

Gave Benson a small order for peaches this morning for spring delivery. Our crop of peaches was so good this year that we feel encouraged to plant out more
