95 DAYS PAST

Friday

271 TO COME

**Post-Malarial Reconstruction.**

A distinct indication in the after-treatment of Malarial infection is the improvement of the vital resistance of the blood. **Pepto-Mangan (Gude)** quickly and efficiently restores the integrity of the red cells that have become more or less disintegrated by the plasmodium, increases their hemoglobin content and constructs new erythrocytes to replace those destroyed.

**Weather**

**Temp.**

Warmer foggy this morning  
but cleared up till it stayed  
cloudy. Rained hard last  
night & the roads are very  
muddy again. Grace, Melba  
Marcel & I all went to Cypher  
this morning this afternoon  
Melba sewed for them. I got  
Melba a new green dress.  
John went fishing this afternoon  
with Obed & Albert & got seven  
Eugene sent over Penew  
by Gene. Appford. Darkey -  
Came in last night &  
had a big calf nearly all white  
Marich 6 - Billy &
