Geriatric Aphorisms—No. 4.

The arcus senilis is not a sign of aging as it may be found in youth.

Senile alopecia begins at the temples and on top. Disease alopecia is scattered.

The old man's rheumatism is an arteriosclerosis, not an arthritis.

The thin man's paunch is an enteroptosis in the hypogastric region; the fat man's paunch is fat and gastroptosis in the mesogastric region.—*Nascher; Amer. Med.*

Weather *a bright day* Temp.

Mrs Dauce died at five
this morning! We all
went over there to night—
Maude Abell was up
& finished putting my
my dress together, John
helped Frank a little
while cut wood & took
the milk B. & L. - Maria's
