

## Sunday, February 28

59 DAYS PAST

306 TO COME

### To Quicken Vital Power,

and to stimulate the formation of erythrocytes and hemoglobin, nothing is equal to **Pepto-Mangan (Gude)**. It establishes, sustains and maintains the vitality of the circulating fluid and thus meets the imperatively necessary therapeutic indication in Anemic, Chlorotic and generally devitalized conditions.

Weather

Cold & windy

Temp.

but bright. Ocelin was over this morning. I wrote a letter to Ella. I sat up a few minutes. Joe went to church twice & Sunday School. The rest of us were home all day
