

TUESDAY 26 6890 14

Thursday, June 25

177 DAYS PAST

189 TO COME

March 18, 1907.

Dr. E. B. Mosher, Columbus, Ohio, says:

"The bottle of **Pepto-Mangan** you sent me Feb. 14 was received. At that time I had a case of anemia. Patient's stomach was in bad condition, the ordinary preparations of iron disagreed with her; she was very much emaciated. I put her on the **Pepto-Mangan (Gude)** you sent me; she retained it without any inconvenience and is improving nicely. I am satisfied it is all you claim for it."

Rained off & on all day. Della  
& I was to buy linen. Maudie  
got dinner, I washed before  
I went, got a new pair  
of shoes & rubbers. Mr. Cox  
was over. Clarence Skinner  
was up. Eugene was here  
for a few minutes.
