

Tuesday May 3<sup>rd</sup>

I haven't done a great deal of any thing to-day except chores and odd jobs. Dad. has felt pretty tough all day and had to rest up for "Pin afore" to-night. Mary. has felt miserable all day. Frank went down town and got see- tickets to Pin afore changed from to-night till to-morrow as we figured Mary. wouldn't feel like going to night. Sue finished cleaning the trash out of the porch and then after noon and I helped him a little. To-night all but Mary. & me went to the concert and we went far a walk down to the pond and saw Jack's deer, the buck came up and licked Mary's hand. Frank took Irene Pick, and Dan Tid. went down to Aunt's from school and was to have gone to the show from there but he was sick all the afternoon in school and was too sick to go to night. They brought him home with them and he has quite a fever. Pin afore went off fine. Ralph was in good shape. and Dick Dead eyes' horrible looks were very impressive. He won his bet with the Captain which was that he could make him laugh. He accomplished the feat by hesitating in his dialogue with Capt. Carcoran to take an imaginary cud out of his mouth walk to the gambrel and toss it over board.

Wednesday May 4<sup>th</sup>

Frank disked in the field back of the barn all day to-day and says it went pretty well. Dad disked, not Frank in the morning with Harry & Billy but they put Pommers in at noon and Frank took them. Dad. & Enoch still feel pretty miserable with bad colds and are tired out. Sid doesn't seem any better and has pains in various parts of his anatomy. I spent most of the day raking up and cutting of the grass back of the house and across the ditch. Mary. helped me this morning a little. I had a bad pain in my eyes all after noon but they were better to night. Frank stayed with Lin. to night and the rest of us went to the show. They had another full house and it all went off fine. Mary. & Enoch drove Mexico down and Dad & Enoch drove home. Mary. & I walked home as they stayed down to a supper which the S. O. D. E. provided for the officers & crews of "Pin afore" Fair & warm.

Thursday May 5<sup>th</sup>

Frank disked all day with Harry & Pommers. and I narrowed with me & Luen and we are getting the piece into pretty good shape although it doesn't work up
