208 DAYS PAST

157 TO COME

Diagnostic "Mays and Musts"—No. 1.

Pallor in a person who is a fit subject for nephritis should not lead the physician to suspect an essential blood disease, but first of all kidney disease. Ofttimes I have been requested to make an examination of the blood, when, in truth, urinary tests were indicated instead.—*Williams; Med. World.*

Weather

Temp.

Rainy looking but no
rain. Girls went for their
Music lessons. I picked
black currants sold 20 quarts
to - I ironed. John was
cutting wheat again today
barn at it three different days
& not done yet. Miller got
her new lace shoes this
afternoon. No haying
anyone bought some bees
cattle & Jim Duncanson
Billey & Mariah 5
