

To post a couple of letters one of them my application for a short course in apiculture at Guelph next week. I called around by the farm and got Dad & Frank & took them out to vote. Jim went too. We didn't care anything about the municipal elections except to see Bruce Smith elected. I heard to night that he was to get in with Harry Austin and some Matthews for councillors. Smith of Port Ryuse beat Roy Adams for reeve and Steve Powell beat Wess Baughner for deputy reeve. I drove Dad & Frank home and on my way back called and got Mabel who is going to board here for the winter in order not to overtax her strength walking so far to & from school. To night I went down to Lodge. Brantford & Dover junior O.K.A. played the first game of the season here to night. Score 5-3 favor of Brantford. Cath.

Tuesday January 3rd

I sat around and read most of the forenoon and the afternoon we all went to Simcoe where Marj. got Mose to frame one of the photographs that he took of the children and we took it down home and presented it to Aunty for her birthday. It was dark when we got home. Ina was here & I left her at the door and drove her home after tea.

Wednesday January 4th

Harry B. & I walked over to Louis this morning to have a look at the puppies. Tom has the sow that he thought was not going to have pigs shut in Lelf the box stall with the colt and has decided that she is in pig after all. She is due on the 13th. This afternoon I sat around till about four o'clock and then walked over home for awhile stopping in at Art. Inambury's to see about getting him to make us a book case. He has a wonderful creation there in the shape of a plaster paris horn for his radio. It looks queer but he says has a beautiful tone. Dad gave me a Masonic apron for a Christmas present. He said it didn't come in time for Christmas. High S.W. wind and cold.

Thursday January 5th

Tom and I went to town in the wagon this morning. He got some feed at Billy Lains and I got some lumber at the Wide spread for the new book case. This afternoon we all drove down in the car and I got a new shirt to go to Guelph in and Marj. went around and saw Dr. Cook for a few minutes. He gave her a bottle. High wind and W. all day getting a little milder.
