

learn roof and make a couple of hog troughs. We wanted to get slabs but he couldn't let us have any. When we got home I went down to the mill and got some rolled oats for the sheep. This afternoon Dad and I put the deers on the harness and hoard but couldn't finish as we found we only had enough screws for three kinks instead of four. Frank put wires in his bee hive frames. About five o'clock I went down to the mill and paid Charlie Juey part of his account as Neil Elliott was in yesterday morning and gave him a check for Babbie but said not to bring her down for two weeks. Enah and I printed pictures to night.

Wednesday August 29<sup>th</sup>

It rained most of the morning and I didn't do anything much but read and try to trim a couple of the low land. Enah's friend Mr. Hall walked over in the pouring rain this morning and stayed to dinner. I cleared up about noon and Pickford came over to see if we would help him thrash this afternoon as Sam couldn't do any thing with the Banghney's alkali stack and said he would thrash Pickford out this afternoon, however they didn't get moved down till about five o'clock so didn't thrash any to day but Pickford was up to night to see if two of us would go down in
