

Ther.

TUES. NOV. 29, 1898

Wea.

I rose this morning and made the fire, and sent Lencie down to Robert's with the drawing, as I did not get it finished till late he got back in time for breakfast, I was busy house cleaning today but the days are so short there is not much time I put in a pair of glass

Ther.

WEDNESDAY 30

Wea.

After I had the morning work done, and the boys off to school, I washed and prepared some apples to grind as George has the cider mill here, after dinner I went out to grind, but found George and S. A at it too, so I helped them and we got all done
