124 DAYS PAST

Saturday

242 TO COME

Surgical Hints.

Filiform bougies for examining urethral strictures can be easily improvised from ordinary round whalebones as sold in the shops. The ends should be made flexible by scraping with a knife.

In the use of elastic bandages and stockings for varicose veins the patients should be directed to remove them on retiring, and reapply them in the morning before leaving the bed.—*Int. Journ. of Surg.*

Weather Fine this morning
but about noon started to
rain & kept it up off and
on & is still raining. Mr
Young came & helped
John this forenoon. They
did the first weeding in
the field along the road
by George Durbies. Mr
Came out with Billy &
helped all day. Melrose
went to Aylmer to night
Mr Cot was over worked
Dally for the first March 6
