319 DAYS PAST

THURSDAY

47 TO COME

Pepto-Margan (Gude) is an ideal ferruginous preparation, because:

1. It causes a rapid increase in the number of red blood corpuscles and the percentage of hemoglobin.
2. It does not derange the stomach in any way.
3. Far from causing anorexia, it actually increases the appetite.
4. It is palatable—a point of great importance in the treatment of women and children.
5. ~~It does not constipate.~~
6. It does not affect the teeth.

Misty all day & chilly. Took
Maudie & a grist to get chopped.
I went for her. Melba wasn't
very well so she stayed home
I went & got some medicine
for her. John ploughed all
day. Mr Young went & thrashed
for Lewis. I got some new
paper for the girls bedroom
& Melin was over for her bread
& oranges. I have been cleaning
the house what time I had
