

Joe this morning and Dad, Enah and Mr. Clark
drove Mexico to Church at least 8 ad. so as far
as the corner and then walked down. It rained last
night and the road was muddy. Cecil & Winnie were
over for awhile this afternoon and then they went with
Mary, Mr. Clark and I down to see the deer and we
took a walk around Jack's place and peeped in the
windows of the house to see the renovations. It
looks very stylish with the hard wood floors and
mahogany wood work. The dining room is all
paneled in dark wood. We then wandered down the
chicken yards awhile. Just as we got back Mr.
Barwell drove the Libbits in all but Dick & Mally
Little Linker had a great time with Ed. riding
on Mexico. Bill Barwell came over after tea & took
Enah to Church and brought her home after. Mrs.
Andrew's has quit the organ so Enah has to play.

wet. but I am yet mad at Charlie who was feeding
and dove him a cutting down eventually and
then Charlie was more careful but very peevish
and never helped Sam move to right. Arthur
Pickford and I carried away and had a very
easy time all morning, but had to work a little
harder this afternoon when the rains began to fall
up. I got some hickory nuts this morning and we
spent most of our time eating them and drawing
pictures in the granary. Dad came home at noon
and did up the chores and we both came home before
supper to night as I wanted to get the milking
done before Sam moved over here. He came in
just as we were finishing and by the time he got
in the barn and left, it was about half past
eight and we had to have our tea after that. Mary
went down town this afternoon, stayed at Auntie's
for tea and went to a girls meeting to night. I
went down to come home with her. I intended to
go to band practice to see what they decided about
practising from now on, but it was so late when I
got down that I didn't go, but heard since that they are going
to take a rest for a week or so.
