

Friday September 3<sup>rd</sup>

This morning Frank and Dad. went out and loaded the binder and took it over the gully, it took quite awhile and as they didn't go out very early on account of the dew they just got one round cut before noon. I guess it was a big job cutting it as they had to go around the side hills. I spent the morning, taking the sod off a strip down along the fence extending from the south end of the rose bed to the ditch the same width as the rose bed and as soon as I got it fixed in shape I want to fill it in with roses from down home. This afternoon it looked pretty rainy so Dad. thought we had better haul in what we could of the barley & oats, we had to pitch off the load of barley which was on the waggon and it took us quite awhile so we only got in ~~two~~ loads. we put them in the old barn on top of the barley & wheat, it was slow moving it away but to-morrow we hope to un load in the big barn with the slings. It has been very hot & sultry to-day Auntie was over to dinner.

Saturday September 4<sup>th</sup>

Dad. went out this morning and turned out <sup>nearly</sup> all the barley & oat shocks, while he was doing that Frank and I changed the car from the horse stable to the big barn and

put the sling standards on the rack. When we got ready I took the team out and we put on a load but as we had to move the calf out of the barn to the orchard and spread out a pile of hay which was in the hay so it was twelve o'clock before we un loaded but it only took us a very few minutes to take it off with the slings. This afternoon we got five more loads and all there was on the field except a few shocks. we worked till about seven o'clock and it was dark before we got in. We got a letter & a telegram from Mr. Millman to-day one saying they would be up here to-night and the other saying they found they couldn't get away. It has been pretty hot to-day & looks rainy.

Sunday September 5<sup>th</sup>

Dad. & I got up a half past five this morning as the calves <sup>stock</sup> <sup>and piggy</sup> were shut in the lane got through the bars at the end of the orchard and came around by the road in to the drive house, but they hadn't done any damage. Frank and I went for a swim before break fast and got back in time to get ready for church. Frank went down to Sunday school. Dad. & Quah drove down to church & left Sid in Dick's care I walked down to Stuby's and went up to church with Laint. This afternoon Dick & I drove down town and I went around to see Mary, she has come back to teach in Miss Watts place. In night Dad. Auntie & I drove
